AMOGH READY MIX CONCRETE

Ready Mix Concrete (RMC) is a ready to use concrete. It is Manufactured in a Technically batching plant according to the design Mix or as per specifications and requirement of the client.

In today construction world ready Mix concrete is preferred rather than on-site concrete mixing because of the precision of the mixture and reduced work site confusion. It facilitates speedy construction. It also reduces labour at the construction site, Cost and saves project time.

WHY AMOGH READY MIX CONCRETE :

We have a High capacity, centrally located Sophisticated batching plant and handling Ready Mix Concrete to our clients, we are confide set of handling all grade of concrete of any quality from M10 to M60

TRANSIT MIXER

We have 2 Transit Mixer which is a strong well - designed piece of equipment meant for transporting concrete / mortar from concrete batching plant directly to the place where it is to be poured. It has a wide range of application specially for mass concreting works like Construction of Canals, Bridges, Highways, Dams, Multistoried & amp; Industrial Buildings, Factories, Airports and for Ready Mixed Concrete Works (R.M.C.)

CAPACITY :

The production capacity of our Ready mix concrete plant is 30cum/hr. amogh ready mix concrete has established a reputation for being able to deliver cost effective and innovative concrete solution to meet variety of requirements.

We are proud to be pioneer in ready mix concrete industry having 35 years commercial experience in concrete industry in bagalkot.

CONCRETE PUMPS

Concrete pump are 35 Floor Pumping Capacity, used on most of the larger construction projects as they are capable of pumping at very high volumes and because of the labour saving nature of the placing boom. They are a revolutionary alternative to truck-mounted concrete pumps.

LABORATORY & TESTING MACHINE

To provide optimal quality and customer service with equipped Machinery and well maintained with Modern equipment quality control Laboratories are attached with the Latest Concrete Testing Machine.

M/S SHRI VIJAYA CONCRETE WORKS.
